### A Table Awaits ~ To Welcome Those in Need ~ A Thanksgiving Tradition For George's Senate Coney Island ~ Northville

The leaves are falling late this year and as the air gets cooler in those crisp mornings, most of us are looking forward to the holiday's and thinking about decorations and a chance to gather with those that we love dear seeing them in this special time of year.

Although, for others – the holidays and colder weather can be a time when they may find themselves alone and/or out in the cold and hoping that someone will invite them in to share warm wishes and a warm homemade meal compliments of George and his Family.

That someone is George of George's Senate Coney Island ~ who every year extends his Family to include you in his family on Thanksgiving Day if you are home alone or if you are homeless.

On Thanksgiving Day there is always a table not too far off from that corner booth that George leaves open for just this special occasion.

The occasion in the warm room from those glass doors that I have spoken about in my last two writings about George and his Family where good homemade food is made from scratch.

They know that if they can offer just one meal to one person in one room ~ that person that sits maybe in that corner booth. That person will know the warmth, smile, a good homemade meal, a hug and a giving hand from George's Senate Coney Island in Northville with gratitude for all that the people that have given back to George.

George and his Family invites you in if you are alone and/or homeless to please visit George's Senate Coney Island in Northville for a free meal, in a warm room with good homemade warm food on this Thanksgiving Day for a free meal.

Please walk in and have a seat and let them know ~ George and his Family Welcome You.
